NATURE'S PARADISE
Bring home the beauty of nature

INTRODUCING

Nature's Paradise

A collection of patterns that perfectly bring alive the wonders of nature's beauty within your home.

Whether it's the smell of petrichor that arises during the first monsoon, the sandy seashells collected from the beach, the unique cloud shapes that stir your imagination, or simply the sweet melodies of the evening birds that sing, mother nature is always close to us.

Taking inspiration from its inflections and nuances, this eclectic range of patterns is derived from nature's most prominent elements.
